# Call For Papers

The **SIME 2026** conference is the **1st Edition** of **IEEE Intenational Conference** on **Smart Innovations for Medicine and Engineering** that serves as a dynamic platform for exchanging groundbreaking ideas, fostering collaboration, and unveiling the latest advancements that are shaping the future of intelligent systems for medical applications, engineering and emerging technologies.

## Themes

**Track 1**
Advanced Medical Imaging, Diagnostics & Therapeutics

**Track 2**
Artificial Intelligence, Data Analytics & Computer Vision

**Track 3**
Biotechnology, Personalized Medicine & Smart Healthcare

**Track 4**
Control, Automation & Intelligent Diagnostics

**Track 5**
Green, Renewable & Sustainable Technologies

**Track 6**
IoT, Robotics & Embedded Systems

## Submission

Academics, Doctors, researchers, industry professionals, and practitioners from around the world are invited to attend and contribute. Authors are encouraged to submit original research papers, case studies, and position papers. All papers must be submitted in English. Paper format and styles are available for download in the Website. All accepted and presented papers will be submitted for inclusion in the IEEE Xplore® Digital Library subject to meeting IEEE Xplore's scope and quality requirements.

## Call for Special Sessions

We invite proposals for Special Sessions aimed at researchers, practitioners and engineers, focusing on new topics or innovative applications in industrial and medical practices and emerging technologies. The organizer of a successful Special Session (minimum of five accepted papers) will be granted one full free registration, including accommodation. Proposals must be submitted before **May 1st, 2026.**
